98 # pyenv
99 #   For a library or package, you might want to ignore these files since the
   code is
100 #   intended to run in multiple environments; otherwise, check them in:
101 # .python-version
102
103 # pipenv
104 #   According to pypa/pipenv#598, it is recommended to include Pipfile.lock
   in version control.
105 #   However, in case of collaboration, if having platform-specific
   dependencies or dependencies
106 #   having no cross-platform support, pipenv may install dependencies that
   don't work, or not
107 #   install all needed dependencies.
108 #Pipfile.lock
109
110 # poetry
111 #   Similar to Pipfile.lock, it is generally recommended to include
   poetry.lock in version control.
```

```
112 # This is especially recommended for binary packages to ensure
    reproducibility, and is more
113 # commonly ignored for libraries.
